

# SALON VIP

## The VIP Room

Big HI to everyone who was inconvenienced by our driveway resurfacing. Thank you for walking through the garden :)

We are off to Sydney to visit the little one for three days so the VIP Room will be closed on 10th to 13th October.

Talking about upcoming closures, we will be closed on 22nd till 28th November as well. More details to follow.

I am sure lots of ladies are getting ready for Melbourne Cup so here are some pointers.

### Millinery Rules and Style

- Accepted Headwear: Fascinators, statement hats, headbands, crowns, and architectural pieces are all popular and permitted.
- Members Enclosure: Millinery, a hat, or a fascinator is strictly required for women in the Members Enclosure.
- General Admission: Headwear is optional in general admission areas, though it remains a beloved tradition.
- Cup Day Vibe: Melbourne Cup Day encourages bright colours, bold statements, and creative millinery.

### Short Hair & Bobs

- The Boyfriend Bob: A chin-to-collarbone-length cut meant for effortless air-drying and self-styling.
- Soft Precision Bob: An update to the classic blunt cut using point-cutting and soft layering to create movement.
- The Bixie / Mixie: A playful hybrid blending a short pixie with soft bob or mullet detailing around the nape.
- Itty-Bitty / Micro Bob: A sharp, precision jaw-length cut for high-impact structure.

### Medium & Layered Cuts

- Air-Dry / Invisible Layers: Custom placement of internal layers that support natural texture and growth patterns without looking choppy.
- The Curve Cut: A 90s-inspired, face-framing rounded shape with flipped ends reminiscent of classic medium styles.
- Soft Shag: Relaxed shoulder-length or mid-length cuts featuring diffused crown layers and wispy movement.

### Long Hair & Bangs

- Waterfall Long Hair: Minimalist, waist-length cuts with dense perimeters and smooth internal movement rather than heavy stepping.
- Birkin & Cloud Bangs: Softer, wispy, and feather-light curtain fringes that skim the cheekbones and blend seamlessly into longer hair.
- The Side-Part Revival: A sweeping natural side part adding root volume and accentuating cheekbones across all hair lengths.

**So we are geared up to make you ladies ready to party. Don't forget to make your appointments in time. Thank youxxx**

*Happy birthday to all those born in October.*
